CONTENTS

Tectonophysics Volume 159

Research Papers

Tectonics of the Mid-Atlantic rift valley between the TAG and MARK areas (26–24°N): evidence for vertical tectonism
Zonenshain, L.P. (Moscow, U.S.S.R.), Kuzmin, M.I. (Irkutsk, U.S.S.R.), Lisitsin, A.P., Bogdanov, Yu. A. and Baranov, B.V. (Moscow, U.S.S.R.) 1

Migration of orogenic fluids through the Siluro-Devonian Helderberg Group during late Paleozoic deformation: constraints on fluid sources and implications for thermal histories of sedimentary basins
Dorobek, S. (College Station, Tex., U.S.A.) 25

Selective heat-production element enrichment in a crustal segment of the mid-European Variscan chain
Vigneresse, J.L. (Nantes, France), Cuney (Vandoevre-lès-Nancy, France), Jolivet, J. and Bienfait, G. (Paris, France) 47

Heat flow and heat production in Brittany (Western France)
Jolivet, J., Bienfait, G. (Paris, France), Vigneresse, J.L. (Nantes, France) and Cuney, M. (Vandoeuvre-lès-Nancy, France) 61

Empirical relationships among the convergence rate of plates, rollback rate of trench axis and island-arc tectonics: "laws of convergence rate of plates"
Otsuki, K. (Sendai, Japan) 73

Temperature changes in an artesian spring at Usami in the Izu Peninsula (Japan) and their relation to earthquakes
Mogi, K., Mochizuki, H. (Tokyo, Japan) and Kurokawa, Y. (Ito, Japan) 95

The mechanism of the occurrence of the Matsushiro earthquake swarm in central Japan and its relation to the 1964 Niigata earthquake
Mogi, K. (Tokyo, Japan) 109

Displacement fields due to the 1946 Nankaido earthquake in a laterally inhomogeneous structure with the subducting Philippine Sea plate—a three-dimensional finite element approach
Yosioka, S. (Kyoto, Japan), Hashimoto, M. (Ibaraki, Japan) and Hirahara, K. (Kyoto, Japan) 121

Structural control of igneous complexes and kimberlites: a new statistical method
Dazheng Zhang and Lutz, Y. (Philadelphia, Pa., U.S.A.) 137

Analysis of the internal structure of rocks and characterization of mechanical deformation by a non-destructive method: X-ray tomodensitometry
Raynaud, S. (Marseille, France), Fabre, D. (St Martin d'Hères, France), Mazerolle, F., Geraud, Y. and Latière, H.J. (Marseille, France) 149

Book Review

Salt Tectonics by M.K. Jenyon—T. Engelder 161

Announcement 162

Special Issue on Thermal Aspects of Tectonics, Magmatism and Metamorphism (edited by S. Uyeda, D.S. Chapman and H.J. Zwart)

Preface iii

Three-dimensional seismic attenuation structure beneath the Japanese Islands and its tectonic and thermal implications
T. Hashida (Tokyo, Japan) 163

Three-dimensional attenuation structure beneath North Island, New Zealand
K. Satake and T. Hashida (Tokyo, Japan) 181

Crustal heat production and mantle heat flow in Central and Eastern Europe
V. Čermák (Prague, Czechoslovakia) 195

Vertical distribution of heat production in the continental crust
V. Čermák (Prague, Czechoslovakia) and L. Rybach (Zürich, Switzerland) 217

A heat generation model for continental crust based on deep drilling in the Baltic Shield
A.A. Kremenetsky, S.Yu. Milanovsky and L.N. Ovchinnikov (Moscow, U.S.S.R.) 231

Geothermal activity, geophysical anomalies and the geothermal state of the crust and upper mantle in the Yarlung Zangbo river zone
Wei Si-yu and Deng Xiao-yue (Beijing, China) 247
Study of heat flow in the Sengan–Hachimantai region, northeastern Honshu, Japan
O. Matsubayashi (Ibaraki, Japan) 255
Thermal structure and seismic activity in central Kyushu, Japan
S. Ehara (Fukuoka, Japan) 269
Estimation of Curie point temperature and geothermal structure of island arcs of Japan
Y. Okubo, H. Tsu and K. Ogawa (Ibaraki, Japan) 279
Paleogeothermal influence on organic metamorphism in the neotectonics of the Japanese Islands
A. Aihara (Fukuoka, Japan) 291
Heat flow anomaly in the middle Okinawa Trough
M. Yamano and S. Uyeda (Tokyo, Japan) and J.-P. Foucher and J.-C. Sibuet (Brest, France) 307
Thermal field near the axial zone of mid-oceanic ridges and heat balance of oceanic lithosphere
E.I. Suetnova (Moscow, U.S.S.R.) 319
Evolution of the Hawaiian–Emperor swell—thinning of the oceanic lithosphere
Y. Kono and H. Ogawara (Kanazawa, Japan) 325
Computing of magma chamber temperatures in rift zones of the World Ocean
A.G. Gorshkov and I.P. Lukashevich (Moscow, U.S.S.R.) 337

Contents Volume 159 347
